

Fishing Pier

Fishing pier, observation post, and bird-watching perch. Whatever your purpose, Superdeck floating docks perform a variety of functions. They take people to hard-to-get-to places and across virtually every terrain.

Not only do Superdeck docks delight people who love to fish, they delight dock operators. Operators appreciate Superdeck's stability and safety; including the sturdy railing system which is stringently engineered to withstand the kind of lateral thrust a fishing dock railing receives. Installed in thousands of locations across the world, project leaders report they benefit from Superdeck's non-slip tread, exclusive "no-bounce" surface, rugged durability, low maintenance cost, and ease of installation.

No more "fix-it now" headaches for operator/owners. No more painting or staining! Low-maintenance polyethylene Superdeck panels excel for dock and boat launch applications. Superdeck's amazing flex strength can survive virtually any kind of hit or abuse, it doesn't need bumpers, and it's impervious to gasoline and oil spills.

Your Fishing Pier will benefit from these exclusive Superdeck features:

- Five foot wide panels easily accommodate wheelchairs to pass and turn
- Patented floats allow water as well as plant, animal and aquatic life to pass underneath
- Impervious to gas and oil spills
- Suitable for piling, pole or deadweight anchorage
- Railing systems available in wood, galvanized steel or aluminum
- Low-maintenance, no-bounce, non-skid surface
- Color-stabilized polyethylene material won't split, splinter, nail-pop, or rot
- No costly or heavy machinery required for installation
- Three deck and float widths (24", 42" 60") available
- Complies with ADA, DNR, US Army Corp of Engineers and Coast Guard requirements

Take advantage of these Superdeck offers:

- Ready to get started? Call 1-800-355-4093 today and speak with our Engineering Design Team. Qualified leads receive a detailed product design, product load characteristics and engineering specifications within 48 hours!
- Need more information before you speak to our Design Team? Call us at 1-800-355-4093 or send an e-mail with your mail address to info@superdecksystems.com. We'll send you a **FREE** 16 page "Universal Access Design Kit." It includes detailed product design information and engineering specifications to help assess your current project needs.
